Association for
Computing Machinery

Advancing Computing as a Science & Profession

What is the UAB ACM?

The UAB ACM is a local student chapter of the Association for Computing Machinery. Our mission is to promote computer science education and proficiency to the campus community. We organize activities ranging from CIS Seminar Series lecturers, programming contests and outreach efforts to social events such as movie nights, camping trips and other gatherings. The chapter is self-governed by its student members.

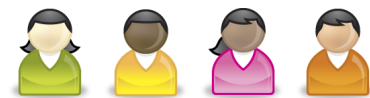

Upcoming Events

- Back to School Lunch, September 3rd, 11:30AM
- Linux Workshops, September 4th and 15th
- General Meeting, September 11th, 11AM, CH430
- **ACM Distinguished Speaker Dr. Allen Tucker**
“Is There A Good Programming Language Out There?” Friday, September 19th, 11AM
- ... other events based on your input!

Member Benefits

- Access to members-only privileges such as ACM-faculty lunches and ACM trips
- Gain leadership experience by running for office or volunteering to plan major department events such as programming contests.
- Meet others with your same interests (e.g. SIGLINUX)
- Free ice cream at the monthly CIS ice cream socials!

How to Join the UAB ACM

- Fill out the “Intent to Join” form at <http://www.cis.uab.edu/acm/join.html>
- Bring cash or a check for dues to Kathy Baier in CH116 (\$10 for the 2008/2009 academic year)
- Come to the first General Meeting on September 11th!

UAB ACM members are also expected to join the international ACM organization. Thanks to an 80% student discount, membership is only \$19/year and provides many additional benefits beyond the local chapter. See <http://www.acm.org/> for more information about joining the international ACM organization.
