

**CS 405 PROGRAMMING LANGUAGES
SYLLABUS
Fall 2007**

<http://www.cis.uab.edu/cs405>

Instructor: Barrett Bryant, Ph. D. (bryant@cis.uab.edu)

Classroom: CH 430

Time: 9:30-10:45 P.M. Tuesday and Thursday

Office: CH 121 (934-2213)

Office Hours: 1:00-2:00 P.M. Tuesday and Thursday or by appointment

Teaching Assistant: Haisong Li (cs405ta@cis.uab.edu)

Office Hours: Tuesday, 4:00-8:00 P.M., CH 154 (975-5796)

Textbook: [*Concepts of Programming Languages*](#), 8th ed., by Robert W. Sebesta. Addison Wesley Longman, 2008.

Recommended: [*Modern Compiler Implementation in Java: Basic Techniques*](#), 2nd ed., by Andrew W. Appel and Jens Palsberg. Cambridge University Press, 2002.

Time Table:	<u>Topic</u>	<u>Chapter</u>	<u>Lecture</u>
	Introduction	1-2	1
	Formal Syntax and Compiling		
	Formal Syntax	3	2
	Lexical Analysis	4	3
	Parsing	4	4-5
	Attribute Grammar	3	6-7
	Denotational Semantics and Functional Programming		
	Dynamic Semantics	3	8
	Functional Programming Languages	15	9
	Denotational Semantics	3	11-12
	Axiomatic Semantics and Logic Programming		
	Logic Programming Languages	16	13-14
	Axiomatic Semantics	3	15-16
	Names, Bindings, Type Checking, and Scopes	5	17
	Data Types	6	18
	Expressions	7	19-20
	Statements	8	22-23
	Subprograms	9	24
	Implementing Subprograms	10	25-26
	Abstract Data Types	11	27
	Object-Oriented Programming	12	28
	Concurrency	13	29
	Exception Handling	14	30

Grading:	Exam #1	1/6
	Exam #2	1/6
	Final Exam	1/3
	Exercises	1/3

Grading Policy: There will be two (2) 75-minute examinations, the first exam on Thursday, September 27, and the second exam on Tuesday, November 6. The final exam is on Tuesday, December 11, 8:00-10:30 A.M. The schedule of these exams is fixed and cannot be changed to accommodate individual circumstances except for a major illness or family emergency. In such cases, arrangements must be made **before the time of the exam** to take the exam at a different time. Makeup exams will not be given without such **prior** approval and only for the emergency cases indicated. Besides exams, there will also be several written and programming exercises which will emphasize the theory covered by the lectures and text. Many of these exercises will build on each other in the form of a complete implementation of a programming language. Therefore, it is imperative that all assignments be done promptly. Assignments will be accepted at most one class meeting late, at a cost of 25% of the assignment credit. Otherwise, all assignments are due on the date indicated **by the beginning of the class period**. The exercises are to be done independently. Any single incident of copying or duplication of work will result in the division of credit among the collaborators. A subsequent occurrence of academic dishonesty will result in the grade of F for the course.

Prerequisites: [CS 303 Algorithms and Data Structures](#)
[CS 350 Automata and Formal Language Theory](#)
each with a C or better
