

CS 201-4A
INTRODUCTION TO OBJECT ORIENTED PROGRAMMING
FALL 2004

INSTRUCTOR: John Ranelli
113 Campbell Hall
934-2213
ranelli@cis.uab.edu

OFFICE HOURS: Monday and Wednesday 10:10 – 11:10
Tuesday and Thursday 2:30 – 3:25
or by appointment

PREREQUISITES: CS-101, Computing Fundamentals (or equivalent)
MA-106, Pre-Calculus
Both with “C” or better.

OVERVIEW: This course is designed to introduce the student to the fundamental concepts of object oriented programming (OOP). There is an extensive problem solving and programming component using the Java programming language. This course requires many hours of programming outside of class.

TEXTS: *Java Software Solutions, Java 1.4, Third Edition*,
by Lewis and Loftus, published by Addison-Wesley

Lab exercises will be placed on the course web page.

GRADE BASIS: Your course grade will be determined as follows:

Homework Programs	18%	
Class Exam I	18%	Tuesday, September 21
Lab Midterm Exam	14%	Thursday, October 7
Class Exam II	18%	Tuesday, October 26
Lab Final Exam	14%	Thursday, December 2
Class Final III	18%	Thursday, December 9 <u>4:15 PM</u>

HOMEWORK: There will be many programming exercises which will reinforce the material covered in the lectures and laboratories. These programs will require Sun Java SDK 1.4 and the Eclipse IDE and can be done in the CIS PC labs or on any other PC with the required software.

Class Policies

Students must be present for ALL exams.

There are NO makeup class exams or lab exams.

All cellular phones must be turned OFF during class or lab.

All pagers must be set to SILENT mode during class or lab.

The last day to withdraw is Wednesday, October 20. It is the responsibility of the student to deliver drop forms to the office of the registrar.

**Class begins at 3:30. Please be ready to begin class at that time.
Arriving late or leaving early is very disruptive to the class.**

Food is not allowed in class or lab.
